Services and Product Offered

CLOUD BASED MANAGEMENT & REPORTING

Parafait provides a secure cloud based system enabling FEC owners/operators unparalleled convenience to take advantage of the latest technology. The cloud based management system allows you to control each and every aspect of a center's operations. Monitor activities, view reports, launch new promotions, change pricing, control inventory and more, all from your laptop or smart phone control panel.

GAME READERS

All Parafait Card Readers utilize the latest RFID Technology and have been built to operate on a wireless network -- No more wires! Parafait's Tap-To-Play game readers are sleek, easy to use and eliminate the frustration of swiping cards.

REDEMPTION AND INVENTORY MANAGEMENT

Parafait's eZee Inventory provides complete control of your inventory & redemption shop. It's a fully functional Inventory module with integrated costing, purchasing and receiving capabilities. Manage Min/Max stock levels with bar coded items to make tracking easier. Multi-user redemption software allows operators to serve multiple guests on a single computer. Further, with our hand held based stock tracking module, rest assured, you will be in full control of your inventory.

SELF SERVE KIOSK

A perfect balance of design, technology and utility, Parafait's Self Service Kiosk can be customized to perform tasks like card purchase/recharge, ticketing and registration to minimize queue times. It's touch screen display and interactive voice based guidance system makes it simple and easy for customers to use.

FOOD AND BEVERAGE SALES

Parafait Point-Of-Sale (POS) along with Parafait mobile POS provides comprehensive support for F&B ordering. When an order (via POS or tablet) is posted, the KOT is printed automatically in the kitchen and the order is executed. Parafait also has an in-built KDS solution, so all orders are routed to the appropriate kitchen displays. Simple functions like swiping and tapping takes the chef through the orders to optimize kitchen operations.

RFID CARDS AND TAGS

RFID Technology gives Parafait its versatility making it more adaptable to our customers needs. Easy to use, the user doesn't Swipe or hold it in a place -- just Tap & GO on the reader. It is a high speed system making the wait time even less. Other advantages include, readability in tough ambient conditions and minimal damage with repeated uses. RFID tags are available in Custom Plastic Cards, ABS Wristbands, key chains, tokens and stickers.

LOCKER SYSTEMS

Parafait's RFID Locker System gives your customers the freedom to roam your facility while protecting their essentials. An easy to install system which seamlessly integrates with the Parafait eco system. Payment and allotment of lockers can be done from a single dedicated sales point and rentals can be deducted from the RFID cashless cards or Wristbands which also act as secured keys for the allotted locks.

POINT OF SALE (POS)

Parafait Point-Of-Sale (POS) is a powerful yet simple to use software designed for efficient operator control. Customizable touch screen allows seamless integration with Cash Drawers, Receipt Printers, Pole Displays, Card Readers and Bar-Code Reader. With the credit card integrations, better HR control & Shift based logins, you will be able to get to next level of efficiency.

RESERVATION & TICKETING

Allow your customers to make reservations, recharge or buy a new card, and look at their activities in store or online. The Online-Party Reservation Module features a secure login for customers, to book birthday reservations, corporate outing etc. Parafait also allows the bookings to be taken over phone, giving an integrated seamless web/in-store view of the bookings. With our ticketing module, you can issue the single entry, family entry, group entry tickets. Setup yearly passes thereby ensuring repeat visits!!

ACCESS CONTROL

Parafait's Access Control system brings total automation to a facility. Gates and turnstiles are integrated with Semnox's RFID readers or Bar-code scanners, which allow them to give access to valid ticket holders, easily track season pass holders and even helps to control pilferage. Parafait's Access Control works wirelessly with devices like; Flap Barriers, Bridge Turnstiles, and Tripod Turnstiles.
